INTRODUCTION

Helping you get to great

AskYourTeam for the Public Sector is designed to lift your organisation's performance from good to great. It's a Continuous Involvement System that asks your people critical questions about how your organisation is performing and then delivers insightful reports that show you precisely what you need to do to improve your organisation's performance.

After a year of rigorous consultation with the public sector, we've created a real-time, flexible system that assesses your performance against the Performance Improvement Framework (PIF) and Leadership Success Profile (LSP) models.

But it doesn't stop there. AskYourTeam is a complete system that also reveals smart solutions to your organisation's challenges, enables you to develop action and leadership development plans, and measures your progress. How? By tapping into the expertise inside your organisation.

AskYourTeam involves everyone in a cycle of continuous involvement, shining a light on challenges.

HOW IT WORKS

AskYourTeam will help you drive measurable results in the areas that will have the biggest impact on your organisation.

Measure what matters

Confidentially survey everyone in your organisation across each of the success factors that research shows are common to the highest-performing public sector organisations.

Retest and flex

Retest to measure progress and drive performance breakthroughs. Continue to flex and refine by retesting as often as you like, focussing on whichever areas you need, at no extra cost.

Mine the gold

A simple traffic light system shows you what's working and what's not, in real time. We'll help you take it one step further, mining the results and bringing the gold to the surface.

Take action

Translate your employees' insights and ideas into action plans that everyone has a stake in.

ASKYOURTEAM AND THE PIF AND LSP MODELS

Inform-Amplify-Measure

AskYourTeam for the Public Sector is designed to support the Performance Improvement Framework (PIF) and Leadership Success Profile (LSP) models under the INFORM-AMPLIFY-MEASURE framework.

Independently-validated methodology

Following a year of rigorous consultation with a dozen organisations from across the public sector, the AskYourTeam for the Public Sector system was independently validated by The University of Waikato's Institute for Business Research. The AskYourTeam methodologies were reviewed against every Harvard Business Review article on leadership and organisational performance from the past five years.

A top priority of the public sector consultation process was to ensure the critical parts of the Performance Improvement Framework (PIF) and

Leadership Success Profile (LSP) models are covered. As a result, the AskYourTeam assertions (questions) are now closely aligned with public sector requirements. AskYourTeam covers 25 out of the 30 lead questions in the PIF (contact AskYourTeam for specific details on this). The five questions not covered aren't appropriate for everyone in the organisation to answer (e.g. How well does the Agency manage agency and crown assets, and the agencies balance sheet, to support service delivery and drive performance improvement?).

“AskYourTeam is aligned with the PIF framework and gives us the ability to measure across a broad range of areas that impact on our organisational performance, not just one particular area, such as engagement.”

PIF - ORGANISATION MANAGEMENT

Measure what matters

AskYourTeam covers, to some degree, every facet of the Organisational Management model apart from the three aspects in grey: Asset, Financial Management, and Risk Management: areas which aren't applicable for all people to answer.

LSP – LEADERSHIP SUCCESS PROFILE

How AskYourTeam methodology supports the LSP

LSP - DESIRED LEADERSHIP CHARACTERISTICS

How AskYourTeam supports the LSP's desired leadership characteristics

Honest and courageous

With AskYourTeam you can apply data-driven facts and insights to previously subjective organisational success factors. This will inform and underpin courageous conversations.

Curious

Gather data, measurements, ideas, examples and solutions that have previously been unavailable to organisations and leaders. AskYourTeam provides better information for better decision making. It also provides a safe, non-threatening way to capture the full diversity of thought that exists in your organisation.

Self-aware and agile

Get the truth about what everyone is really thinking about the organisation and its leaders. With AskYourTeam, you can easily see 'blind spots', or differences between leaders' perceptions and those of the rest of the organisation.

Resilient

AskYourTeam gives leaders confidence that everyone is working on the areas of greatest impact and enables them to measure progress instantaneously and in real time. Celebrate success or course correct as quickly as possible.

PUBLIC SECTOR ASSERTIONS

Tailor-made for the public sector

In their review of public sector progress “Getting to Great”, Sue Suckling and Debbie Francis noted there are several consistent areas of leadership weakness in the sector. These include:

- Dealing with non-performance
- Making hard decisions
- Delivering hard decisions in an effective way
- People feeling they had the autonomy to make appropriate decisions
- Handling stressful situations

We’ve developed ten additional assertions for the AskYourTeam for Public Sector system, designed specifically to assess performance in these areas, as well as others critical to optimal public sector performance.

Leadership

1. Our leaders make and deliver hard decisions in an effective way
2. My immediate leader handles stressful situations well

Performance development

3. Poor performance is managed effectively in our organisation

Operational processes

4. I have the autonomy to make decisions on appropriate matters

Organisational performance

5. I am proud of the beneficial impact our organisation has for our clients

External providers

6. Our external providers make a positive contribution to our organisations’ performance

Stakeholder relationships

7. We operate effectively in delivering value to our sector
8. Our organisation has a good reputation for providing quality advice and services to ministers
9. We consult effectively with stakeholders
10. We collaborate effectively with other relevant organisations

LEADERSHIP AND MANAGEMENT

Build stronger leaders

AskYourTeam supports strategic leadership, system leadership, talent management and delivery management by enabling you to:

- Uncover the ideas and expertise of all of your people to maximise innovation, efficiency and effectiveness.
- Consult specific teams or all of your people as often as you want, in a targeted and efficient way.
- Measure instantaneously to respond to challenges and opportunities in real time.
- Create an unparalleled level of transparency and accountability.
- Get 180 degree feedback on operational and leadership effectiveness.
- Use data-driven feedback to develop and customise individual leadership
- development plans and to measure the success of investment.
